

SUNNY CHARKHWAL

DevOps Engineer (AWS · Kubernetes · Terraform · CI/CD) | Former Lead Frontend Developer (React.js)

New Delhi, India • sunny.charkhwal@gmail.com • +91 90130 30173 • [LinkedIn](#) • [Portfolio](#)

SUMMARY

DevOps Engineer with **5+ years** of experience spanning frontend engineering and cloud infrastructure, including **2+ years leading production React.js teams** before transitioning into DevOps. Skilled in automating **CI/CD pipelines**, containerizing applications with **Docker/Kubernetes**, and managing **AWS** infrastructure as code with **Terraform** — backed by first-hand experience shipping the application code that runs on that infrastructure.

SKILLS

Cloud & IaC: AWS (EC2, EKS, S3, IAM, VPC, RDS, ALB, Route 53, CloudWatch), Terraform, Ansible, CloudFormation

CI/CD & Containers: Docker, Kubernetes (EKS), Helm, GitHub Actions, Jenkins, GitLab CI, ArgoCD

Monitoring, Security & IAM: Prometheus, Grafana, SonarQube, Trivy, OWASP, IAM/RBAC, Site Reliability

Scripting, OS & Frontend: Python, Bash, Linux Administration, Git, REST APIs, React.js, Next.js, JavaScript (ES6+)

WORK EXPERIENCE

Freelance DevOps & Frontend Engineer — Self-Employed

Dec 2024 – Present

Delhi, India

- Built CI/CD pipelines with GitHub Actions, cutting deployment time **65%** (≈40 min to under 15 min), and containerized **4+ applications** with Docker/Kubernetes.
- Wrote reusable Terraform modules provisioning EC2, S3, RDS, VPC, IAM, and ALB as infrastructure-as-code, reducing manual environment setup.
- Rebuilt a client's React checkout flow (hooks, lazy loading), cutting load time **40%** and reducing cart abandonment; shipped **15+ features** across **8 releases**.

Lead Front-End Developer — Maxlence Digital (OPC) Pvt. Ltd.

Apr 2022 – Nov 2024

Gurugram, India

- Led a team of **5+ developers**; introduced a shared component library and code-review standards that cut PR turnaround **35%**.
- Led a state-management rebuild that cut page load time **30%** and reduced production crashes; mentored **2 junior developers**.

UI/UX Designer & Frontend Developer — MassMan Cyber Geeks

Apr 2021 – Apr 2022

Gurgaon, India

- Delivered UI/UX design and front-end development across two roles; recognized both times for reliability and consistent contribution.

Front-End Developer — SchoTest

Feb 2020 – Feb 2021

Delhi, India

- Built responsive, high-performance React.js applications with consistent cross-device compatibility.

PROJECTS

Wanderlust — End-to-End DevSecOps Pipeline (GitHub)

- Built a multi-stage Jenkins pipeline on AWS EKS with Terraform and ArgoCD, cutting manual deployment effort **~60%** across **5+ microservices**.
- Hardened the pipeline with SonarQube, Trivy, and OWASP scanning, and deployed Prometheus/Grafana observability dashboards.

EDUCATION

Bachelor of Computer Applications (BCA), Computer Software Engineering — IEC University, Himachal Pradesh

2019 – 2022

gNIIT Program, Computer Software Engineering — National Institute of Information Technology (NIIT)

2017 – 2019
